

INTEX®
MILLWORK SOLUTIONS

The finishing touch that stands the test of time.

Low Maintenance

INTEX PVC millwork offers durability that far surpasses wood or other materials. While wood can be affected by moisture, changing temperatures, UV light and insects, INTEX's Cellular PVC is just the opposite. Our Cellular PVC is impenetrable to moisture and it won't rot, swell or split like wood. INTEX's Cellular PVC is bug proof, UV resistant and impervious to salt.

Easily Painted

INTEX millwork can be easily painted. Best of all, because our millwork's material composition does not absorb moisture, the paint creates a strong bond with the PVC. That enables the paint to retain its fresh look longer and it will never peel!

Green

INTEX PVC millwork is not a wood product and can be manufactured without impacting valuable forest resources. Our high efficiency dust collection system allows us to capture 99+% of the PVC dust generated during the manufacturing processes. The dust is then recycled along with other PVC scrap, leaving virtually no environmental impact.

Innovative Solutions

“

INTEX impresses us in the way they think products through, stay open to suggestions for improvement, and continue to update design and engineering. INTEX listens.

-Tony Shepley, Founder and President, Shepley Wood Products, Inc.

”

Welcome to INTEX Millwork Solutions, the premier 100% cellular PVC millwork manufacturer who has a passion for making homes more beautiful – and home ownership more enjoyable.

Our PVC millwork is an innovative product developed by people who take great pride in their spirit of innovation, talent for fine craftsmanship, commitment to quality and dedication to cultivating highly satisfied customers.

We look forward to helping you bring your home's unique personality to life with PVC trim, mouldings, millwork, railings, pergolas and other design elements engineered for performance, and designed for many years of lasting and distinctive beauty.

With INTEX Millwork Solutions, you can truly enjoy a finishing touch that stands the test of time.

Railing Systems

Nothing adds distinction and definition to homes and outdoor living spaces like a stylish railing. Both beautiful and functional, a railing can be stunningly elegant, classically simple or designed as a wrap-around with real curb appeal.

You'll also appreciate the INTEX systems approach – an advantage that takes quality, beauty and simplicity to a new level. All rails, balusters, radius curves, decorative panels and other components are ready for assembly with all necessary hardware.

- Select from either the Liberty extruded and routed system, Hampton extruded system, Dartmouth extruded and prefinished system or Nautilus milled and primed system.
- Add additional charm with newel posts in recessed, raised, chamfered, fluted or flat designs and newel caps in plain or pyramidal styles with multiple moulding options.
- Meets the structural performance requirements of the International Building Code and the International Residential Code for up to 10' spans. Dartmouth is commercially code approved for 12' spans, 50% longer than competitor products.
- Decorative panels are available for all railing systems.
- INTEX can provide a Structural Mid Newel Post Mount with a PVC cover to allow for a continuous top rail while providing structural support at mid span up to 16 feet.

Unique Routed Rail System with Graspable Option

- Matte Finish – 100% Extruded Cellular PVC with Aluminum Reinforced Core
- Pre-routed for Easy Assembly
- 3-1/2" Width and 2-3/4" Graspable IRC Code R311.7.8.3 Compliant
- Hidden Stainless Steel Fasteners
- 1-1/4" Square Edge Balusters and Square Edge Posts
- 5" Standard Newel Cover; 6", 8", 10" and 12" Optional
- Injected Molded Cap and Trim Rings Available, Solid PVC Cap Optional
- Spans up to 10' IBC Level Application
- Spans up to 10' IRC Stair Application
- Does not require paint, but can be painted

CERTIFIED / CODE APPROVED

Meets International Residential Code (IRC) for spans up to 10 feet on level rail and up to 10 feet on stair rail.

LONGER SPANS

Liberty is available in 6, 8, and 10 lengths for level & radius rail runs, and 6, 8 and 10 foot lengths for stairway applications.

LOWER LABOR COSTS

Install quickly by following simple, easy to understand installation instructions.

Why PVC and Aluminum are Superior

Works Like Wood

Rails can be cut, coped, milled, routed, or drilled just like wood. Full line of custom newel posts and caps are available to add a highly customized wood look to your project.

Paint Adheres Better to PVC

There are unlimited paint options with Hampton and the superior adhesion of paint to PVC compared to wood. Paint brush strokes on Hampton rail make it indistinguishable from painted wood – a look that cannot be achieved with WFMEs. And in many cases, painting the WFME will void the warranty.

Problems with Wood Flour Composites

Because of the need to build structural integrity into an inherently weak product, most wood flour composites have closed tube construction incorporated into their rail design. Unfortunately these pockets can eventually fill with water and go through freeze/thaw cycles until saturation and cracking occurs, breaking down the product from the inside.

Above shows small cracks that turn into large cracks.

Cellular PVC Alternative

The Cellular PVC formulation used in the Hampton Extruded Rail System is proven material that has been used in the field for decades. This is combined with aluminum extrusion to provide structural integrity beyond what composites can offer.

Railing Systems Specifications

HAMPTON EXTRUDED RAIL SYSTEM

The Hampton Extruded Rail system is available in 6, 8 and 10 foot lengths for level & radius rail runs, and 6 & 8 foot lengths for stairway applications.

DARTMOUTH
EXTRUDED RAIL SYSTEM

DARTMOUTH

EXTRUDED RAIL SYSTEM

Elegant Profile with Modern Characteristics

- Matte Finish – 100% Extruded Cellular PVC with Heavy Duty Aluminum Reinforced Core
- 3 ½" and 4" Rail widths
- Commercially Code Approved for 12' Span
- Hidden Stainless Steel Fasteners
- 1 ½" Square Edge Balusters and Square Edge Posts
- 5" Standard Newel Cover; 6", 8", 10" and 12" Optional
- Multiple Newel Caps Available
- Painting is not necessary, but can be Painted
- In House Custom Radius Capability
- Ship primed and requires finish paint

CERTIFIED / CODE APPROVED

Meets commercial requirements of International Building Code (IBC) and International Residential Code (IRC) for spans up to 12 feet on level rail and up to 8 feet on stair rail.

LONGER SPANS

Dartmouth is available in 6, 8, 10 and 12 foot lengths for level & radius rail runs, and 6 & 8 foot lengths for stairway applications.

LOWER LABOR COSTS

Install quickly by following simple, easy to understand installation instructions.

“

We chose the INTEX Dartmouth rail system for a recent deck renovation because of the engineered approach which allowed us to meet or exceed the code required guard rail standards. The hidden fasteners were easy to install and the aluminum sub-rail system created a secure base onto which the visible top rail was installed after very careful fitting. The result is a very solid, precise fitting system with no visible fasteners. Three sections of the rail were custom curved and fit perfectly after being templated by the INTEX rep whose help throughout the project was valuable.

- Walter E. Henry, P.E.

”

DARTMOUTH EXTRUDED RAIL SYSTEM

The Dartmouth Extruded Rail System offers outstanding strength in a range of beautiful standard designs. These components come pre-finished in white and carry a 10 year paint warranty. Available for straight runs, stairways and radius applications.

NAUTILUS MILLED RAIL SYSTEM

The Nautilus Milled Rail System components can be custom crafted to meet individual design specifications. They are delivered sanded, primed and ready for your finish coat. Available for straight runs, stairways and radius applications. Nautilus Gooseneck sections are made to length ordered plus 1 inch, to maintain architecturally correct details while allowing a 1" trim cut for plumb.

RS10375

NOTE: Maximum baluster width for RS10375 rail is 1-1/2 inches.

“INTEX Rail Systems have become the solution for my customers who want a low maintenance rail that looks like wood. I've been able to convert that customer who would never use a “plastic” looking rail. We often supply INTEX Rail Systems to replace the old rails falling apart on stately homes. The INTEX Nautilus Rail System has worked in residential and commercial projects.

-Mike Stone, Moynihan Lumber, Inc.

LIBERTY

EXTRUDED AND ROUTED
RAIL SYSTEM

Unique Routed Rail System with Graspable Option

- Liberty Rail Kits don't require paint, but are paintable
- Level spans rated for 10' commercial
- Deco Panels don't require paint, but are paintable
- Radius rail arcs from 6', 8' and 10' rail spans. For stairway applications 6', 8' and 10' spans are available.*
- Stair spans rated for 10' residential

HAMPTON

EXTRUDED RAIL SYSTEM

Economical Rail Solution with Superior Performance

- Hampton Rail Kits don't require paint, but are paintable
- Level Spans rated for 10' Residential and Commercial
- Deco Panels don't require paint, but are paintable
- Mahogany cap must be stained and sealed
- Radius rail arcs from 6', 8' and 10' rail spans. For stair way applications 6' and 8' spans are available.*

DARTMOUTH

EXTRUDED RAIL SYSTEM

Elegant Profile with Modern Characteristics

- Dartmouth Rail Kits don't require paint, but are paintable
- Level Spans rated for 12' Residential and Commercial
- Deco Panels and Turned Balusters don't require paint, but are paintable
- Radius rail arcs from 6', 8' and 10' rail spans. For stair way applications 6' and 8' spans are available.*

NAUTILUS

MILLED RAIL SYSTEM

Old World Design with Time Honored Detailing

- Nautilus Rail Sets are primed and require finish paint
- Level Spans rated for 10' Residential and Commercial
- Deco Panels and Turned Balusters are milled, primed, and require finish paint
- Radius rail arcs from 6', 8' and 10' rail spans. For stairway applications 6' and 8' spans are available.*

Newel & Column Wraps

Wrapped in stylish designs, newels and columns can do double duty as both vital structural components and dramatic visual elements. Homes adorned with columns and newels convey a feeling of timeless strength and beauty.

- Choose from standard offerings or create custom shapes and sizes including flat, raised, recessed, chamfered, fluted, tapered, or turned styles.
- Create custom newels and column wraps to meet your design requirements or for historic restoration.
- INTEX Newels and Column Wraps can be applied around existing structural members or used in stand-alone, non-structural applications, delivering everything needed for a quick, easy and secure installation.
- Split pedestal base options available for newels and column wraps: plain, 4-side, inline, corner and 3-side. Column wraps are available in standard 6, 8, 10 and 12-inch widths and 8, 9, 10 and 12-foot heights complete with mounting brackets, caps, base trim, PVC adhesive and everything needed to finish installation.
- Make 4 x 4 posts look like 10" x 10" columns, or use column wraps to accent or match other trim components.
- INTEX Newel and Column Wraps are compatible with INTEX Rail Systems.
- INTEX Newels and Column Wraps can be painted, allowing for limitless design possibilities.

Newel POST WRAPS

Several newel posts wraps are also available in corner "C", inline "L" and three-side "E" panel configurations. INTEX Newels are made from quality 5/8" thick PVC, and are designed for use with all INTEX Rail Systems. Larger standard & custom sizing and applications are also available.

“

My customers demand certain products and expect high quality craftsmanship. When I was introduced to your product, I thought to myself: why didn't I think of that? What a great product. It is the answer to the problems associated with wood, such as rot and warping, but still allows you the freedom of design, as with wood. It is also the cure for the blandness associated with typical vinyl rail systems. Most of all you don't get that vinyl rail squeak, a common complaint amongst all of my homeowners. I went to your facility and met with your staff. What a first class operation: from the sales team to the president of the company and all those in between. All were very helpful and knowledgeable. All associated with Ferg Homes love the way the project turned out, most of all the homeowner. I look forward to working with you and your products in the future.

-Jim Ferg, Ferg Homes, LLC

Nantucket Newel Caps

FOR INTEX NEWEL POST WRAPS

INTEX's Nantucket Newel Cap product series provides you with over 100 newel cap styles to choose from. Nantucket Newel Caps are designed to fit all INTEX standard newel post wraps sizes 5", 6", 8", 10" and 12". Larger standard & custom sizes are available upon request.

Scan for all cap possibilities!

Newel cap dimensions that are shown are for 6" newels.

Add a dash (-) 5, 6, 8, 10 or 12 at the end of the part number to designate the newel size that the cap needs to fit.

Post Mount

BY INTEX MILLWORK SOLUTIONS

INTEX Post Mounts are post surface mounts designed for installing a post to concrete, wood or composite decking. INTEX Post Mounts are wood post replacements and are designed with an adjustable leveling feature to ensure accurate installation. Post Mounts are made from steel with Dachromate coating for superior rust prevention in even the most severe environments.

INTEX Post Mounts

For longer spans INTEX can provide a post mount with a PVC cover to allow for a continuous top rail while providing structural support at mid span up to 16 feet. INTEX Post Mounts can replace a pressure treated 4x4 and work well with INTEX Newel Post Wraps.

Easy Wrap POST WRAPS

INTEX's Easy Wrap Post Wrap is economical and easy to install. Save money in product and labor cost by using this economical post wrap system.

- 100% Cellular PVC
- Available in 96", 108" & 120" Heights
- Available in 4-1/2", 6-1/2" & 8" Widths
- Includes 2 Trim Rings
- Easy and Quick Installation
- Does Not Require Painting, but Can be Painted

“Easy Wrap is a very affordable post cover that can save many man hours of labor on site. It's plain easy to use design allows us to incorporate it on many applications such as basic porch post covers, outside shower post covers, landscaping screens, arbors, and gates. It gives us the ability to quickly cover the post and invest our time on the more intricate details of the elements that we are designing.”

-Paul Criscione, President, JP Criscione Construction

Column WRAPS

Column Wraps with decorative side panels are also available in corner "C", inline "L" and three-side "E" panel configurations. Larger standard & custom sizing and applications are also available.

Photo Contest

OUTDOOR LIVING WITH INTEX

The INTEX Team looks forward to receiving photography of completed projects. Send us your "Outdoor Living with INTEX" photography by going to www.intexmillwork.com for a chance to be in the next INTEX Millwork Solutions brochure.

Cutaway view of turned newel to show INTEX Post Mount. INTEX Post Mount is not visible when installed.

"We have done a few large projects with some leading rail brands and find that INTEX's product and design services are superior. We see the difference in the details. We value the hidden fasteners, the ease of customization and quick installation process for our rail projects. The finish product is always seamless and will never pull apart. To top it off, INTEX PVC products actually look like real wood."

-Robin Delgado, Eastern Architectural Millwork

Pergola Systems

Freestanding in a garden, gracing a patio or surrounding a hot tub, a pergola creates a dramatic architectural statement. INTEX Pergola Systems are as strong as they are beautiful, and designed for a secure, easy installation. Enjoy your new outdoor oasis in as little as a weekend.

Exceptional Strength and Durability

INTEX cellular PVC pergola components are sleeved over structural aluminum internal reinforcements to provide strength and durability. Additionally, INTEX has designed a complete bracket system for assembling components together. Bracket holes align the screws with the internal aluminum members, assuring a secure installation.

Carefree Beauty

Designed completely with low maintenance materials, your INTEX Pergola System will provide years of carefree enjoyment. Our cellular PVC rafters and carrying beams will not rot, warp, crack, or peel. The aluminum internal reinforcements and external brackets will not rust or corrode. Quality stainless steel screws and fasteners will not rust or bleed onto the structure.

Why Choose an INTEX Pergola System?

- Aluminum reinforced cellular PVC components
- Complete bracket system for easy installation
- Low Maintenance
- Cellular PVC components will not rot, warp, crack, or peel
- Aluminum reinforcements and brackets will not rust or corrode
- Quality stainless steel screws and fasteners will not rust or bleed onto the structure
- Pergola Systems engineered to meet International Building Code available
- Economical pergola system kits available
- Multiple standard pergola tail designs to choose from

SCAN TO DOWNLOAD
INSTALLATION INSTRUCTIONS
OR GO TO [INTEXMILLWORK.COM](http://intexmillwork.com)

Following the guidelines above will ensure a successful gutter installation and a lifetime of low maintenance performance. As with any gutter system it's important to clean debris from the gutter periodically to ensure proper drainage. Failure to keep debris from the gutter could result in damage due to water from ice and snow buildup.

(1) The Boston Gutter System should only be painted a color with a LRV (Light Reflective Value) greater than 55.

Window Surrounds

BY INTEX MILLWORK SOLUTIONS

INTEX Window Surrounds can be manufactured to fit any shape or size window. With our large selection of frame, crown and sill options, INTEX surrounds save time and eliminate scrap connected with building surrounds on-site.

There are advantages to using INTEX Window Surrounds. They are complete units fully assembled. They ship ready to install to save you time on the job site. All INTEX products are shipped clean and wrapped in plastic so all you have to do is put them up. With all the endless custom options, you can let INTEX do the work for you.

-Mark Walters, Production Manager, INTEX Millwork Solutions

Window Surrounds, Mouldings & Trim

Mouldings & Trim

BY INTEX MILLWORK SOLUTIONS

INTEX fabricates mouldings from solid, cellular PVC boards using the same techniques as mills providing wood mouldings. INTEX moulding will not rot, absorb moisture, shrink or warp. Mouldings are milled to standard industry patterns. Additionally, mouldings are profile sanded, primed and ready for installation. Most profiles are shipped in lengths of 17'-6". Custom milling is always available to match existing profiles, or to satisfy any design specification required.

Entry Systems

Transform a typical front door into a 'welcome home' statement. With choices of trim styles, headers and pediments, there are over 100 combinations - just right for any house style.

- Fits 36" - 77" entry door and side light variations.
- Four trim kit styles.
- Standard Entrance Kits in stock at distribution.
- Custom sizes, styles and options are available.
- On-site technical assistance available for complex door configurations.

“

INTEX's Entry Systems come in customizable kits to fit most homes with the ability to use our CNC Router and Moulder to match existing accents on homes old and new. We provide customers the flexibility to reinvent their home with new looks or maintain the historic integrity in a long lasting and low maintenance material. In a recent custom historic restoration project, we had recreated an existing entry by only using photographs and measurements provided to us by the customer. By fitting CNC Router parts with custom mouldings in one gigantic jigsaw puzzle we were able to exceed the customers expectations.

-Michael Hazuda III, Design Engineer, INTEX Millwork Solutions

SELECT PEDIMENT

CUSTOM ENTRY SYSTEMS CAN BE
CREATED FOR HISTORIC RESTORATION
OR FOR YOUR UNIQUE STYLE

STEP 1: ENTRANCE KITS

- For Door Units up to 7'-0" in Height
- 2-1/4" Mullion Casing
- Comes with a Standard Cross-head Shelf

ENTRANCE KITS	3/0 DOORS	10-30-10 & 60 DOORS
3-1/2" Fluted	DK3F30	DK3F64
4-1/2" Reeded	DK4R30	DK4R64
5-1/2" Fluted	DK5F30	DK5F64
8-1/2" Built-up Fluted	DK8F30	DK8F64

3-0 SHELF

6-4 SHELF

STEP 2: CROSS-HEADS

NOTE: Cross-heads may be used in conjunction with pediments.

CROSS-HEADS	3/0 DOORS	10-30-10 & 60 DOORS
Frieze Head	DCHF30	DCHF64
Dentil Head	DCHD30	DCHD64

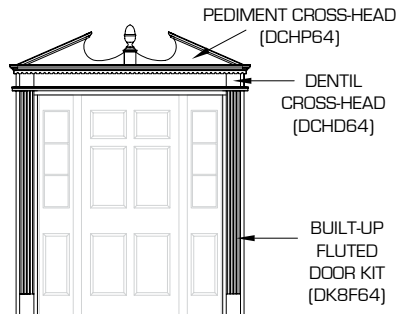

STEP 3: PEDIMENT

NOTE: Cross-heads may be used in conjunction with pediments.

PEDIMENTS	3/0 DOORS	10-30-10 & 60 DOORS
Pediment Head	DCHP30	DCHP64
Rams Head	N/A	DCHR64
Elliptical Sunburst	N/A	DCHE64*

*Use with DK4R64 on a 10-30-10 door only.

Custom Millwork

Traditionally renovating a historic home used to be challenging due to custom woodworking which would rot with time. Brackets, panels, trellis, porch heads or anything that can be imagined can be created to exact specifications.

INTEX Millwork Solutions specializes in the design and fabrication of custom cellular PVC trim and millwork. Architects and builders rely on INTEX's strengths in both traditional workmanship and engineering technology to craft intricately detailed, high-quality millwork for distinctive homes and buildings.

INTEX enables limitless interior and exterior custom millwork design options. From intricate details to innovative finishing touches, INTEX PVC custom millwork is created using advanced CAD design technologies, state-of-the-art fabrication equipment and hand-crafted techniques once reserved only for wood.

- Our custom millwork is produced to precise design specifications, fabricated to order, packaged securely so that product arrives damage free – ready for installation.
- Custom replication of brackets and other architectural details allow for a more accurate restoration.
- Custom lattice and panels provide a stylish sense of security.
- Add style and privacy with custom fencing.

Commercial Applications

You can count on the unsurpassed performance of INTEX's engineered systems. Innovative technology and fine craftsmen give INTEX the ability to meet any design specification. The easy to install INTEX "system" approach will also lower your construction labor costs.

- Dartmouth rail is Architectural Testing Approved and ICCES & CCRR certified.
- The engineered Premium Pergola System has longer clear spans when compared to the competition.
- Column Wraps can be installed at the end of construction.
- INTEX products can be customized to meet any design specification.
- INTEX's engineered products Meet International Building Code.
- Easy installation provides lower labor costs.
- All INTEX products are made from low maintenance 100% Cellular PVC.
- A full support design team is available to assist you with your project.

Historic Restorations

The experienced skilled craftsmen at INTEX have the knowledge and creativity to protect and preserve your home's architectural heritage. By using INTEX's talent and innovative technology, intricate ornamental detailing and exquisite finishing touches can be readily created.

- Millwork at INTEX is built by fine craftsmen.
- INTEX has the ability to match the details and craftsmanship of the original historic millwork.
- Cellular PVC is durable, non-corrosive, rot and fungus resistant.
- INTEX's millwork is low maintenance and designed for long term performance and cost savings.

“

INTEX's ability to accurately recreate corbels using material that will ensure our homeowners experience years of worry free maintenance was instrumental in allowing us to fulfill the desire to maintain the architectural integrity of the community. It also went a long way toward helping us make good on our mission of providing low-cost, affordable and easy to maintain homes.

*-Michael C. Synczyszyn, Project Manager,
Habitat for Humanity of New Castle County*

Architectural Training

INTEX offers design services to architects that are unparalleled by providing a library of ready to use templates and custom templates upon request for project plans free of charge. Whatever design you have in mind, INTEX can help you bring it to life. Our advanced CAD design technologies, state of the art fabrication equipment and skilled craftsman are available to create the finishing touch you never need to touch again.

INTEX Millwork Solutions recognizes the importance of continuing education in architecture and is very proud to announce that INTEX Millwork Solutions is now a registered provider with AIA/Continuing Education System (AIA/CES).

Course: Understanding the Benefits of Cellular PVC Rails, Pergolas and Gutters
Provider: INTEX Millwork Solutions
Length: 1 Hour
Credits: 1 LU
Course Code: INTEX20150126

Course Description:

This course will offer a basic understanding of the benefits of specifying cellular PVC (Poly Vinyl Chloride)

railing systems, pergolas and gutters for residential construction projects. These systems in residential and commercial construction and remodeling are both decorative and functional however options have been historically limited to architects. Traditional materials like wood, vinyl, and composite materials have been the standard choices available for years, but these materials pose several challenges in aesthetics, durability, affordability, and limited design options. Today these systems can be created using cellular PVC which offers many advantages over traditional materials.

If you would like to learn more about INTEX Millwork Solutions products, or if you are interested in attending a course, please contact us at (856) 293-4100 or via email at aia@intexmillwork.com. CSI Specs are available for download at www.intexmillwork.com.

Common Questions

What are the benefits of Cellular PVC?

INTEX's Cellular PVC millwork offers durability that far surpasses wood or other materials. While wood can be affected by moisture, changing temperatures, UV light and insects, INTEX's Cellular PVC is just the opposite. Our Cellular PVC is impenetrable to moisture and it won't rot, swell or split like wood. INTEX's Cellular PVC is bug proof, UV resistant and impervious to salt. Unlike Vinyl, INTEX's Cellular PVC can be milled, painted, and installed like natural lumber. INTEX's Cellular PVC also does not squeak, shine, yellow, fade, or chalk like vinyl.

Can INTEX products be painted?

Yes, due to the inherent expansion and contraction characteristics of PVC, INTEX's PVC millwork products should only be painted colors with an LVR (light reflective value) greater than 55.

How do you clean Cellular PVC?

Cleaning all INTEX products are easy and fast with most major household cleaners. There are many cleaners on the market and the glass cleaners seem to be the best candidate for keeping the finish looking great. The cleaning solution should be applied and immediately wiped dry. Harsh cleaners with glycol ethers or ethanol type solvents and/or isopropyl alcohol are not recommended.

How long do INTEX products last?

INTEX products are designed to last in the harshest of environments. For this reason, all INTEX Millwork Solutions products carry a lifetime limited warranty.

Where can I purchase INTEX products?

Go to www.intexmillwork.com to find an authorized dealer near you.

Are technical drawings and documentation of INTEX products available?

Technical drawings and product documentation are available on www.intexmillwork.com. If you need more information, please call our office at (856) 293-4100.

Lifetime Limited Warranty

All INTEX Millwork Solutions products carry a lifetime limited warranty. Please see our web site for further information.

For hundreds of years, beautifully crafted wood millwork has been a distinguishing characteristic of the finest homes. Whether designed by an architect or envisioned by a homeowner, these unique exterior details have traditionally been brought to life through the hands of skilled craftsman. INTEX PVC millwork brings art and science home, with a material that replicates the natural look of wood, eliminates wood's upkeep and maintenance, and is custom crafted and delivered ready to install.

If you'd like to learn more about INTEX Millwork Solutions, visit us online or give us a call. We'll be happy to answer your questions, assist you in selecting options, or work with you in creating a custom design.
