DISCOVER

• Therma-Tru. You're in expert hands.

Choosing Therma-Tru isn't about just selecting a door. It's about designing an inspired entrance. Creating a look everyone will love. And having confidence that it will perform for years to come.

Whether it's Classic or Contemporary – or somewhere in between – Therma-Tru offers virtually unlimited choices to complement the architecture of a home and a homeowner's sense of style.

But it's more than beauty that makes Therma-Tru the brand builders and remodelers prefer most.* With more than 50 years of industry experience and technical know-how, we've built a reputation for delivering high-quality, low-maintenance exterior door products for the whole house – from entry to patio.

We invented the fiberglass door because we believe it combines the best characteristics of wood and steel – beauty and performance – without the compromises. And we remain committed to making smart, innovative new products – such as the Classic-Craft Canvas Collection and vented sidelites – that are better and more beautiful every year.

Whatever the entrance needs – from energy efficiency to security – your search ends here. You'll find a range of Therma-Tru® products to meet the criteria for the home and suit the homeowner's lifestyle.

**That's where the beauty of choosing
Therma-Tru begins.**

Therma-Tru® Door Systems

Uncompromising quality, inside and out.

A Therma-Tru door with genuine Therma-Tru components is more than a beautiful door – it's a complete door system. One that offers uncompromising quality, inside and out. We manufacture or specify every aspect – from the glass to the hinges – all engineered with craftsman precision for durability and reliability through the years. So you can be confident that it will perform as exceptionally as it looks.

• Backed by our lifetime limited warranty.

Lifetime Limited Warranty

We stand behind more parts and for longer than other door companies because we make or specify everything that goes into our door system. A Therma-Tru fiberglass door system is backed by the industry's most comprehensive lifetime limited warranty.

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

Quality Testing

Our doors, glass and components are held to high standards. We conduct thorough testing to help ensure that our products will live up to a homeowner's toughest quality and performance expectations.

The Beauty of Choice

The architectural beauty of a Therma-Tru door is easy to see. With the look of real wood, rich panel details and intricate, handcrafted decorative glass designs, there are thousands of possibilities to suit the style of a home and express a homeowner's personal style.

Door System Components

Have confidence in a door system made with genuine Therma-Tru components to meet the needs of many applications. More on pages 6–7.

Door Selections

Find choices in design, texture and material with many configurations available to find the ideal door system. More on pages 8–15.

Decorative & Specialty Glass

Complement any Therma-Tru door with a variety of glass shapes and designs. More on pages 16–19.

Finish Options

Complete the desired look with stain or paint, including the Same-Day® Stain kit available in seven popular finish colors. More on pages 254–255.

Selecting a Door System

Therma-Tru pays close attention to regional and consumer trends to deliver choices designed to inspire. Keep these considerations in mind when choosing from our portfolio of door system products:

- What is the size of the doorway?
- What is the style of the home?
- Does the homeowner want to stain or paint the door?
- How much light or privacy is desired?

Also consider:

- Regional weather conditions and building codes. See pages 22–23 for more.
- Therma-Tru 2015 new products. See pages 24–31 for more.

Engineered to Work Together

Our complete door systems feature doors, glass and components engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

- 1 Sill and bottom sweep** form a tight seal against wind-driven moisture infiltration at the bottom of the door system and help channel moisture away from the home. **Sill pan** (recommended) adds an extra layer of protection to help keep moisture away from the subfloor.

- 2 Corner seal pads** (inswing only) complete the seal between the **sill cap**, **bottom sweep** and **weatherstrip** to help block potential pathways where wind-driven moisture can infiltrate the bottom corner of the door system.

- 3 Hinges** position the **door** to properly compress the **weatherstrip** to help form a tight, even seal against air and moisture infiltration when the door closes.

- 4 Weatherstrip** is specifically engineered in a variety of profiles to provide the best possible fit with our door systems, helping to deliver a precise seal between the **door and frame**.

- 5 Multi-point locking system** (recommended) engages the **door** and **frame** at three points from top to bottom, helping to preserve the **weatherstrip's** seal even under wind pressure.

- 6 Lip-lite frame** (shown right) features a **compression seal** against weather on the outside of the **door** and an **adhesive seal** against weather on the outside of the **glass**. **Flush-glazed glass** (shown left) is built directly into the door without a Lip-lite frame, featuring a **high-performance adhesive weather seal** inside and out.

A Complete Door System

More than beautiful doors and glass; a complete door system includes the components used to assemble it. We manufacture or specify every aspect of a complete door system. The Therma-Tru genuine components shown here are our premium options for long-lasting durability.

Composite Adjustable Sills ❖

Inswing and outswing composite sills resist rotting and insects. Inswing adjustable sills help to maintain a tight seal over time.

Dual-Bulb / Dual-Fin Bottom Sweeps ❖ (Inswing Only)

A dual-bulb, dual-fin design helps maintain tight contact with adjustable sill caps and creates added barriers against moisture.

7-Shape Corner Seal Pads ❖ (Inswing Only)

Innovative options include our patented jamb assembly, featuring the 7-shape corner seal pad which creates an air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

Removable Weatherstrip ❖

Resilient design compresses when closed and springs back when open, protected by a durable jacket, for long-lasting sealing power.

Multi-Point Locking Systems ❖ (Recommended)

Increased engagement between door and frame enhances stability and the homeowner's sense of security.

(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.)

Ball-Bearing Hinges ❖

Hinges with ball bearings protecting each hinge pivot, or "knuckle", offer added support and stability.

(Recommended for Classic-Craft. doors, 8'0" doors, doors with glass, and Impact- and Fire-rated fiberglass doors.)

Frame Components

Check with your Therma-Tru seller for options to complete the door system, including rot-resistant brickmould, jambs, mullions and coil cladding manufactured to our specifications.

For more, including these additional component options, see pages 245–253:

Sill Pans ❖, Rain Protection ❖, Strike Plate and Astragals ❖.

Tru-Defense: The Ultimate Protection

Therma-Tru fiberglass doors are available with our exclusive Tru-Defense. system, which integrates specific components engineered and tested to deliver outstanding protection in all kinds of weather conditions. And it's backed by a Warranty Rider that provides for cash reimbursement that may be used toward secondary damage to flooring and trim, and the labor to make repairs if water infiltration occurs.* Look for the (❖) icon. For details, visit www.thermatru.com/trudefense.

Water Infiltration Cash Reimbursement Limit

Latch and Deadbolt Lock with Standard Assembly: with a Therma-Tru Sill Pan:	\$250 \$500
Multi-Point Lock with Standard Assembly: with a Therma-Tru Sill Pan:	\$750 \$1,500
Multi-Point Lock with NAFS-Certified Door System: with a Therma-Tru Sill Pan:	\$1,000 \$2,000

*For full details on the Tru-Defense Warranty Rider, visit www.thermatru.com/trudefense. The Rider does not warrant workmanship of anyone who assembles or installs a Tru-Defense door system, nor any damages caused by improper handling, assembly or installation.

Door Selections

Choose from our many door selections to complement the architectural style of the home with a variety of options. Fiberglass or steel material choice. Wood-grained or smooth texture. Stainable or paintable finish.

Classic-Craft® Collections Pages 32-105

Find the right style for any personality. Choose from premium fiberglass entryways in four wood grains or a smooth surface that rival custom wood.

Rated a *Consumers Digest* Best Buy for its exceptional warranty, quality of materials and construction, and resemblance to a real wood door.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions.

Fiber-Classic® Collections Pages 106–191

The industry's first fiberglass door delivers the look and feel of real Mahogany and Oak with excellent performance and value.

See the difference.

Discover architecturally correct designs, exclusive glass options and rich, authentic finishes.

Feel the difference.

Experience the integrity of a solid, precision-engineered entryway built for long-term durability, stability and peace of mind.

• Extraordinary in every way.

Classic-Craft® Premium Entryways

A premium entryway that's truly unique and uncompromising in every detail. One that blends precision-engineered features with architecturally correct details to produce an entryway that performs as exceptionally as it looks – instilling confidence and peace of mind. And it's rated a *Consumers Digest* Best Buy for its exceptional warranty, quality of materials and construction, and resemblance to a real wood door.

Compare for yourself.

Premium – right down to the edge.
A solid hardwood square edge delivers a genuine wood appearance.

Standard fiberglass bullnose edge.
The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

Architecturally correct for true classic beauty.
Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

Up to 25% wider panels*

The look of real wood.
Realistic wood grains that are virtually indistinguishable from high-grade wood doors, thanks to Therma-Tru's AccuGrain® technology.

Details that define a custom door.
Crisp, handcrafted elegance creates embossments that are deeper than standard fiberglass doors.

Classic-Craft Premium Door

Standard Fiberglass Door

*Compared to other standard fiberglass doors.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.
Left Page: Classic-Craft Mahogany Collection, Ashurst Glass, Door – CCM305, Sidelites – CCM3305SL, Transom – ASRT

- Find options to fit every entrance.

Fiber-Classic® & Smooth-Star® Doors

Bring home the authentic look of wood doors with the low-maintenance benefits of fiberglass. From front entry to patio to utility doors, the Fiber-Classic and Smooth-Star portfolio offers flexible options to fit virtually every entrance with beautiful, energy-efficient, durable and secure fiberglass doors. Choose from a wide range of door styles and sizes, and decorative and specialty glass, as well as innovative solutions like vented sidelites. Also available: Impact-, Fire- and Sound Transmission Class- (STC) rated options.

Portfolio versatility.

With many door styles in common and interchangeable glass designs between collections, it allows flexibility to find the right door, in the right texture, without compromises.

On-trend surfaces.

Available in a variety of textures, including grain choices with the look of real wood or a smooth, paintable alternative to steel. (Wood-grained images shown in Light Oak stain.)

High-definition panel embossments.

High-definition panel embossments are standard on all doors and sidelites.

Door Construction

Therma-Tru fiberglass doors offer the authentic look of wood. It's virtually impossible to tell the difference. But the beauty goes beyond skin deep. We combine craftsmanship and innovation to build our doors for long-lasting energy efficiency, durability and security.

Classic-Craft® Premium Entryways

1 Enhanced Weather Resistance

No more worries about rotting, warping or twisting. Classic-Craft premium entryways are tested and designed to resist extreme weather conditions and the damaging effects of moisture. Both the top and bottom of the door are protected by composite rails for a longer-lasting entryway.

2 Solid Security

Classic-Craft premium entryways feel solid and close with authority. A 4- $\frac{1}{8}$ " wide beam of engineered lumber runs from the top to the bottom of the locking side of the door to add mass and rigidity, giving the door weight and a natural wood feel.

3 Excellent Durability

Built to stand up to the elements and years of wear, Classic-Craft's fiberglass skins are thicker than other standard fiberglass doors to provide added durability and better long-term performance.

4 Higher R-Values

Classic-Craft premium entryways contribute to an energy-efficient home. A polyurethane foam core provides up to four times the insulating R-Value of wood.*

5 Edge-to-Edge Moisture Protection

Resist moisture at every turn – and along every edge. Classic-Craft premium entryways have hardwood and composite edges that help prevent moisture penetration.

*Comparison of fiberglass to wood doors (both without glass).

Fiber-Classic® & Smooth-Star® Doors

1 Weather Resistance

Composite rails protect the door at the top and bottom edges to help block moisture that can wick into doors.

2 Security

An enhanced lock block combined with 1- $\frac{1}{4}$ " engineered lumber lock and hinge stiles increase rigidity and stability.

3 Durability

With very little maintenance, a fiberglass door can bring a home years of durability. Unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust.

4 R-Values

Built with a polyurethane foam core, Therma-Tru fiberglass doors insulate against cold and heat for exceptional energy efficiency, offering up to four times the insulating R-Value of wood.*

Decorative & Specialty Glass

A Therma-Tru door system with decorative glass can create an entrance that makes a statement — one that says the homeowner has high standards for style, quality and craftsmanship.

- Our wide array of glass designs, from simple to intricate, reflect the home design trends and homeowner desires of today and tomorrow.
- Numerous glass colors, textures, shapes and coming options are available to complement any Therma-Tru door.
- Our glass designs are researched in the market to ensure they are highly rated in consumer preference.
- Our decorative glass is handcrafted and built with all-glass bevels for premium quality.
- Our glass designs offer varying levels of privacy and light to suit homeowner needs.
- All Low-E and clear glass panels are tempered to provide added safety.

Doors come to life with Therma-Tru® glass.

More than 10%
wider glass*

Standard Glass

**Classic-Craft
Flush-Glazed
Sidelite**

Classic-Craft® Premium Entryways

- An exclusive collection of 13 decorative glass families, starting on page 32.
- Close attention to detail produces truly distinctive designs you won't find anywhere else.
- More than 10% wider glass* welcomes more light into the home and creates a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All sidelites are made with flush-glazed glass for a truly seamless, consistent appearance.
- All clear glass options are Low-E, providing long-term energy efficiency.

*Compared to other standard fiberglass doors.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Special Quote Program

Don't sacrifice the look you want. With thousands of standard glass choices and additional glass options available through special quote, we can help you find the right look for virtually any home. See page 256.

Triple-Pane Construction

Most decorative and privacy glass features triple-pane construction for reduced outside noise and increased energy efficiency.

Fiber-Classic® & Smooth-Star® Doors

- A portfolio of 16 interchangeable decorative glass designs, starting on page 110.
- Standard 22" glass width with Lip-lite frame and flush-glazed options with 25"–27" glass width invite light into the home for a more brilliant interior. See page 169 for flush-glazed options.
- Lip-lite frames are heat and fade resistant, and suitable for use with a storm door.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

Contributes to an energy-efficient home.

Privacy Glass

All Therma-Tru doors and sidelites can be fitted with our four elegant privacy glass designs – Chord, Chinchilla, Raininglass and Granite. Each of them enhances a home with privacy, peace of mind and the beauty of textured glass, while still allowing natural light to brighten the interior.

- Varying opacity levels range from 8–10 to find the right balance of privacy and light for the home.
- All privacy glass options are triple-pane, providing added security, thermal efficiency and reduced sound transmission.
- Triple-pane construction also allows for an easy-to-clean surface.

Available in Classic-Craft®, Fiber-Classic®, Smooth-Star®, Profiles™, Traditions and Pulse® doors and sidelites.

• Convenient choices for more light.

Low-E Glass

Factory-coated Low-E glass delivers exceptional energy efficiency. Available in Classic-Craft, Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse. Look for the ☀ icon.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, helping to keep the interior of the home cool.

Flush-Glazed Glass

Features frameless design.

Glass built directly into the door during the manufacturing process eliminates the need for a lite frame and provides a high-performance weather seal. Flush-glazed glass features clean lines and eliminates the need for screw plugs. It also offers up to a 16% increase in visible glass area compared to conventional lite frames.

Available in Classic-Craft, Fiber-Classic and Smooth-Star.

Look for the ☀ icon. See page 117 for more.

*Available in Special Quote Program.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Internal Blinds

Enjoy the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Choose Low-E glass for maximum energy efficiency or standard clear glass.

Available in Fiber-Classic®, Smooth-Star®, Profiles™, Traditions and Pulse® doors and sidelites.

- ① Single-Hand Operator ② Privacy Bar

Divided Lites

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Tailor the look with different texture, profile and color choices. See page 116 for more.

- Coordinate with the home's window patterns for a cohesive look and increased curb appeal.
- Choose from Colonial, Craftsman or Prairie styles to suit the home's architectural details.
- Available glass options include elegant privacy glass, energy-efficient Low-E and clear.

Available in Classic-Craft, Fiber-Classic, Smooth-Star, Profiles and Traditions.

Wood-Grained & Smooth-Textured Simulated Divided Lite (SDL) Bar Options

Contour & Flat Grilles Between Glass (GBG) Bar Options

Available in Fiber-Classic, Smooth-Star, Profiles & Traditions.

Also Available: Removable Wood Grilles & Fixed Grilles

What Makes Therma-Tru Different?

Classic-Craft® Canvas Collection®

• The premium smooth, paintable choice.

For years, Classic-Craft premium entryways have defined beauty and durability for fiberglass doors. The innovative Canvas Collection delivers a high-performing alternative to custom wood and heavy-gauge steel. These doors pair durable Classic-Craft construction with crisp embossments and custom wood details. Find choices to match any home décor with a smooth surface that's paintable inside and out, and available in more than 380 door and glass combinations.

- The aesthetics of wood and the performance of fiberglass in a smooth, paintable door.
- Extraordinary in every detail with precision-engineered features and architecturally correct details.

- The largest line of door and glass combinations available in any Classic-Craft collection.
- Classic-Craft is rated a *Consumers Digest* Best Buy for the fiberglass entry door category.
- Available in many styles and sizes – including 8'0" heights – to complement more home styles.

See the collection, starting on page 88.

Fire-Rated Options Tru-Defense Eligible WBDR / HVHZ Options

What Makes Therma-Tru Different? Vented Sidelites

Ventilation and aesthetics second to none.

Perfect for the front entry.

- Enjoy the added curb appeal of an elegant front entry unobstructed by a screen or storm door.
- Choose eye-catching, decorative glass designs to complement the front entry door selection.

Therma-Tru reinvented sidelites to meet the needs of homeowners seeking ventilation, convenience and aesthetics. Keep the incredible look of the entry or patio door system without sacrificing the pleasure of a fresh breeze. There's no need to cover the door with a screen. Choose beautiful vented sidelites instead. And only Therma-Tru offers vented sidelites with decorative glass design options.

- Works as a small swinging door with sturdy stiles to accommodate hinges, multi-point locking system and thumbturn.
- Wide patio mullions provide required structural strength for years of dependable operation.

- Continuous system, recessed strike plates and multi-point locking gears provide security and stability.
- Convenient, removable screens – available in bronze and white – are easy to operate and designed for years of worry-free use.

Available in Fiber-Classic and Smooth-Star, starting on page 106.

Tru-Defense Eligible

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, Tru-Defense Rider and ENERGY STAR qualified products.

Tough When You Need It. Beautiful Always.

High-Power Testing

Our Impact-rated doors pass a large missile impact test. We blast a 9 lb. 2" x 4" stud into the doors at 34 mph to prove they're the better choice for strength and stability.

■ Wind-Borne Debris Region (WBDR)
■ High Velocity Hurricane Zone (HVHZ)

Impact-Rated Products

Therma-Tru offers Impact-rated doors and glass that can be used to meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection.

1 Use the map as a guide to find out if you need product for WBDR or HVHZ.

Always confirm building code requirements in your area before buying.*

2 Use the icons to find available Therma-Tru® product options in this catalog.

STANDARD DOOR

IMPACT GLASS

WBDR Option

Designed to withstand wind forces up to 167 mph (DP-50).
(ASTM E 1886 / ASTM E 1996)

Standard Fiberglass Door + Impact Laminated Glass with Impact Lip-Lite Frame = WBDR Option

IMPACT DOOR

IMPACT GLASS

HVHZ Option

Designed to withstand wind forces up to 195 mph (DP-65).**
(TAS 201 / TAS 203)

Impact Steel-Plate Reinforced Fiberglass Door + Impact Laminated Glass with Impact Lip-Lite Frame = HVHZ Option

WBDR / HVHZ Options: Look for this icon to find door and sidelite styles that can be configured for WBDR or HVHZ.

3 Verify that there is a Therma-Tru product approval specific to your area for the door system configuration before buying.*

4 Make sure the product is installed in compliance with the product approval to meet building codes.

The performance of the door system depends on how it is installed. Proper installation is required to comply with building codes.

*Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

**Impact and structural performance of a single Therma-Tru fiberglass door with a steel plate lining and a Therma-Tru multi-point locking system.

Note: See your Therma-Tru seller or visit www.thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Impact Doors

Feature a built-in 24-gauge steel plate lining.

Impact Glass

Features special laminated glass construction.

Impact Lip-Lite Frame

Features durable, paintable aluminum construction. An attractive scrolled profile gives a thin, sleek appearance and a screw channel cover helps hide unsightly screws.

Other Considerations

Fire Doors

We offer an industry-leading selection of fiberglass 20-Minute Fire-rated doors – with 20- and 90-Minute Fire-rated steel options available – for protection with a sense of style. See pages 217–221.

Noise Reduction Doors

Therma-Tru Sound Transmission Class- (STC) rated Noise Reduction doors deliver aesthetics with a commercial level of performance for residential projects. See page 190.

Smooth-Star® 8'0" Flush-Glazed Door Style

28

• A timeless look with broad appeal.

3/4-Lite 1-Panel
Flush-Glazed

Available Grid Patterns

Perfect for front entry, yet versatile enough for patio. Get the timeless look of the 3/4-lite 1-panel door style with the beauty and performance of flush-glazed glass in a smooth, paintable surface. Now in 8'0" height to complete the statement on a grand entrance with high ceilings.

Available with specialty glass. See the entire flush-glazed selection available in a realistic wood grain or sleek, smooth surface, starting on page 169.

Flush-Glazed Fiberglass Door Replacement Rider

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door and glass.

Classic-Craft® Premium Entryways

New 8'0" Door Sizes, Styles & Glass Options

Therma-Tru is proud to announce that our Classic-Craft premium entryways will soon be available in more sizes, styles and options to meet the growing trend toward taller doors and wider openings with a premium aesthetic. The additions feature the American Style Collection in a **NEW** 3'6" x 8'0" size, while our Rustic Collection expands its 3'0" x 8'0" and 3'6" x 8'0" doors to include **NEW** panel designs, as well as **NEW** glass options. Looks like some of our most popular doors are about to become even more sought after.

More to like about the doors you love.

For a quick reference of our current 3'6" door style options, see the chart on page 257.

To learn more about availability, call 1-800-843-7628.

Classic-Craft® American Style Collection™

Introducing the 3'6" x 8'0" Craftsman 2-panel flush-glazed door with a bigger glass opening than other Therma-Tru® 8'0" Craftsman doors. Available with decorative and specialty glass in simulated divided lite configurations. Pairs with existing 8'0" full-lite sidelites and a new dentil shelf scaled to fit for true Craftsman appeal.

Sample of the New Styles

Classic-Craft® Rustic Collection™

Introducing the 3'0" x 8'0" and 3'6" x 8'0" 2-panel square top doors with on-trend, wider panel embossments. Available with decorative and specialty glass options for new and existing 3'6" x 8'0" doors. Pairs with existing 8'0" full-lite sidelites, clavos and straps.
