A Fresh Look

Louvers & Gable Vents

Louvers have been a useful design accent for centuries. For today's homes, Fypon offers an incredible variety of decorative (non-venting) and functional (venting) louvers to fit most architectural styles. Decorative louvers have a solid, one-piece design that does not allow air to pass through. Functional louvers are designed to provide additional ventilation, with angled slats to help protect interiors from the elements. The inside of the functional louver has a corrosion-resistant screen that helps keep insects out while allowing airflow between the slats. Accessory pieces, such as flat trim and keystones, are available for most louver styles to add another beautiful touch. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: Custom 6M Elliptical Arch, K6TM, MLD220-12, MLDS85308BP, EBLV18X30, WCH72X6K, MLDS85299BP

How to Use This Section

The products in this section of the catalog are organized by louver style followed by matching trim. Where applicable, matching keystones are referenced for each louver and trim piece.

How to Order

Louvers

The first step when ordering a louver is to find the proper size for your specific application by measuring the width and height. Then find the louver you need to order by locating your desired style with corresponding measurements on the following pages.

Functional Louvers**

If you are ordering a functional louver, you should order a louver that is approximately 2" larger than your rough opening on all sides of the louver. This will allow you to attach the louver to the substrate through the brick mould edge.

Louver Accessories

Keystones and trim are available pre-attached to standard products as fabricated items. Keystones and trim can also be ordered as unattached accessories by listing the matching part number as a separate line item on your order.

Fabricated & Custom Products

Some products shown in this section are available with fabricated options. This means one or more standard parts can be altered to create additional sizes, attach accessories or route a channel to accept siding. To request a fabricated product – or to request a unique custom product design – please fill out our Quote Request Form, which can be obtained at www.fypon.com/product/custom.asp, or contact the Fypon Custom Product Sales Department at 855.397.6647 or the Fypon Customer Service Department at 800.446.3040.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 200 to order Loctite® PL Premium® Adhesive.*

* Loctite® PL Premium® is owned by Henkel Corporation.

** Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Fypon reserves the right to hollow out the back of any product without notice. This space is not intended to be used for blocking purposes. Some products may be made as assemblies. Images are representative of style, actual product will vary by size.
